**Company Name:** Credenca Data Solutions Pvt. Ltd.

**Position:** Front-End Developer.

**Experience**: 0-1 Year

**Description of position:**

Credenca Data Solutions Pvt. Ltd. is looking for a Junior Front-End Developer to join our growing team. The ideal candidate will have hands-on experience or strong academic exposure to building scalable, responsive web applications using Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, and modern UI frameworks. You will work closely with senior developers and designers to deliver enterprise and AI-powered applications in an Agile environment.

**Desired skills and experiences:**

- Develop and maintain front-end applications using Angular and TypeScript following best practices.
- Write clean, maintainable, and well-documented code in JavaScript (ES6+) and TypeScript.
- Implement responsive, cross-browser UIs using HTML5, CSS3, Tailwind CSS and Bootstrap.
- Translate Figma wireframes, prototypes, and business requirements into user-friendly layouts following UI/UX best practices.
- Work with RESTful APIs to display and manage data on the front end.
- Apply state management techniques for scalable, modular code.
- Ensure high performance and accessibility of web pages across devices and screen sizes.
- Use Git/GitHub for version control and collaborate effectively with team members.
- Participate in User Acceptance Testing (UAT) and ensure production-ready quality.
- Optimize front-end code for speed, performance, and SEO.
- Work in Agile/Scrum teams, contributing to sprint planning, daily stand-ups, debugging, and feedback loops.

**Good to have:**

- Exposure to ReactJS or other modern front-end frameworks.
- Experience with Angular Material or other component libraries.
- Familiarity with Progressive Web Apps (PWA) concepts.
- Awareness of web security best practices (input validation, XSS prevention).

- Knowledge of Azure, Netlify or other cloud hosting platforms for front-end deployments.
- Basic understanding of unit testing for front-end components (Jasmine/Karma/Jest).

**Other Skills:**

- Understanding of business requirements and ability to translate them into technical solutions.
- Excellent analytical and problem-solving abilities.
- Strong written and verbal communication skills to convey technical concepts to non-technical stakeholders.

**Educational Qualifications:**

- Candidates should hold a minimum of a bachelor's degree.
- Any relevant certifications

**Work Location:** Pune

**Requirement Fulfillment:** Immediate to within 15-20 days.
